Teddy Gentry Country Music Legend

Teddy Gentry, bass player for the legendary country music group ALABAMA, was born and raised on Lookout Mountain in Fort Payne, Alabama. Gentry will share his insights into breeding cattle to fit environmental conditions along with how grazing management has benefitted his beef cattle operation. Gentry owns and operates the Bent Tree Cattle Co., located near Fort Payne. The farm is home to the South Poll composite breed of cattle, developed from Red Angus, Hereford, Senepol and Barzona genetics.

Greg Judy Author

Greg and Jan Judy of Clark, Missouri run a grazing operation on 1620 acres of leased and owned land. Greg and Jan went from near bankruptcy in 1999 to paying off a 200 acre farm and house in 3 years with custom grazing on leased land and are completely debt free today.

Greg wrote a book in 2001, entitled "NO RISK RANCHING, Custom Grazing On Leased Land", which gives a complete breakdown on the methods they used to build their operation from scratch. In 2008 Greg wrote a second book "COMEBACK FARMS, Rejuvenating Soils, Pastures and Profits with Livestock Grazing Management". Greg's newest book covers all the methods they use with Holistic High Density Grazing, multi-species grazing, grass finishing animals, and eliminating costly inputs.
