Staff time addressing clearance issues	$20.00 per hour	Venango Conservation District
Black and white photocopies	$.25 per single side	Venango Conservation District
Color photocopies	$1.00 per single side	Venango Conservation District

POLICIES

- The fee schedule will apply whenever and Erosion and Sediment Pollution Control Plan is submitted for an adequacy determination or environmental review services. Fees may also be assessed when the District requests plan submission due to problems perceived on site.
- The fee will not be applicable to agricultural operations such as plowing, clearing, grubbing, and tilling, and agriculture conservation practices completed in accordance with a conservation plan developed by the Natural Resources Conservation Service or an approved agricultural Erosion and Sediment control plan that is not part of an NRCS conservation plan. When a site disturbance occurs that is not an agricultural practice such as earth disturbance for a large building, Erosion and Sediment control plan fees would be applicable.
- When the site construction and final stabilization are not completed within three (3) years from the date of initial plan approval, the District reserves the right to require the submission of a new plan and additional or upgraded controls if and Erosion and Sediment Pollution Control standards have been revised. Fees will be charged per the current VCD fee schedule.
- Each resubmission of a different project on the same tract of land will be charged separately according to the current fee schedule, regardless of whether or not the original project received a letter of adequacy.
- Where the applicant or applicant’s agent fails to directly address and attempt to resolve technical deficiencies identified by the District after a review of the Erosion and Sediment Control plan, and such negligence requires the District to conduct more than two plan reviews, a fee equal to one-half (50%) of the original cost will be imposed for each submission thereafter. Resubmission fees may be waived at the discretion of the District Manager.
- If the plan, check or application is incomplete, the applicant will be notified. If a check is returned due to insufficient funds, the plan will not be reviewed.
- E&S fees for DEP Chapter 102 Pilot Program for Individual Permit expedited review will be double the standard fee.
