

A scenic landscape featuring a calm lake in the foreground, reflecting the surrounding environment. In the background, there are rolling hills and mountains, some of which are covered in dense green forests. The sky is a soft, pale blue. A semi-transparent teal gradient is applied over the entire image, creating a serene and naturalistic atmosphere.

VCD RAWAPI Project

Regional Agriculture Watershed Assessment Program Initiative

Regional Agricultural Watershed Assessment Program Initiative

- VCD utilized over \$500,000 of DEP funding
 - Assess & identify sources of pollution in Kahle Lake watershed
 - Create corrective plans
 - Develop designs & engineering to implement the plans
 - Construct Best Management Practices to reduce pollution
- VCD was able to add three additional watersheds to the project.
- Thank you to the operation owners, DEP, USDA-NRCS, PennDOT and Team Ag for helping make this project a success.
