COMMUNITY ENGAGEMENT EVENTS AND SURVEY VENANGO COUNTY COMPREHENSIVE PLAN UPDATE

Venango County has initiated the preparation of an update to our Comprehensive Plan. All county residents are invited to participate in the planning process. The Plan will provide action-oriented strategies focused on top County priorities. The Plan will also provide a working framework as we continually plan for changing conditions, evolving priorities and the future of Venango County. The Comprehensive Plan update will consist of the following components:

- Community Engagement - It is vital to obtain and use input and guidance from residents, community organizations, business/industries, service providers and other segments of the County to prepare the Plan.
- Existing and Anticipated Conditions – Profiles that provide meaningful and useful information on current conditions, changes and trends within the County will be prepared.
- Priorities – The Plan will identify the top priorities that the County will focus on.
- Action Strategies – Recommendations and actions steps will be included that will help the County and partners address our priorities.
- Implementation - A high level of emphasis will be placed on developing implementation strategies to help guide efforts after the Plan is completed.

Four (4) open house community meetings are being held within the County to gather community input:
